

Dear Parents and Guardians,

## Your opinion counts....

- Survey responses are anonymous.
- Survey results are presented in percentages based on all responses for each question
- Survey results are presented to the School Advisory Board, which includes Father Paul and Mrs. Ende
- All comments are noted verbatim by question number and cannot be tied to a specific survey. These responses are not statistically significant – meaning that a good or bad comment does not reflect the opinion of everyone else - but it is a way to communicate your feelings beyond a “yes or no” “good or bad” answer. Please remember to refrain from using your child’s name or gender.
- Since changes or improvements may be based on the parents’ overall opinion, please don’t rely on other parents to speak for you.
- Remember, you are not only the parents and guardians, you are the customer.
- Survey due by **June 14, 2010**

We look forward to hearing from you!
